DATE : November 8, 1985
SUBJECT : LAIDLAW PERMIT STATUS
REFERENCE : S. Trunk Sewer Project
TO : R. Nelson

CC: L. Bumbicks
W. Smull

Bill Smith of the Chicago office of Laidlaw notified me on November 8, 1985, that they had submitted to IEPA requests to become permitted to landfill Excavation Dirt A(contaminated with unknown oil) and B(contaminated with 2NBP). Laidlaw decided not to accept Dirt C(contaminated with tar components) into their landfill, so they will not pursue a landfill permit. I expect IEPA will approve the landfill permits for Dirt A and B sometime in November or early December.

I'll notify you as soon as I become knowledgeable.
